### Applicant(s)

CANTAGALLO, RONALD

### Examiner

William J. Deane

### Art Unit

2614

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 30 September 2003.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the network administration application, network service application, ISUP parameter fields, a coupling, a switch, a second network administration application and flow charts of the methods as recited in the claims must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 11, 23 – 33 and 48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically, there are multiple situations where there is no antecedent basis for certain recited limitations. For example, in claim 1, there is no antecedent basis for “the network service application. In addition, it appears that in the second to last line “an identification of the target device” should read as – the identification ...

In claim 23, there is no antecedent basis for “the network service application”

In claim 48, there is no antecedent basis for “the network administration application”.

This not meant to be an exhaustive list, but rather merely examples of some of the problems found in some of the claims. If there are any 112 problems found in applicants’ response a Final will result.

Because of the many problems found with the application a proper search could not be conducted. However, the rejection below appears to be appropriate.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1 – 49 are rejected under 35 U.S.C. 102(e) as being anticipated by U.S.

Patent No. 6,724,876 (Williams et al.).

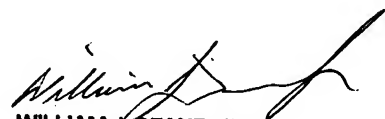

With respect to claims 1 – 49, note that Williams teaches a method effecting telecommunications service features using extracted call control information using a call control application server and monitoring device (network administration application), transmitting a command communication including identification of the initiating and target devices and a code. The Williams et al. system uses ISUP and AIN including the use of SSP, STP and SCP. In addition, Williams et al. teaches the use of SS7 signaling. See Col. 2, line 43 – Col. 4, line 41, Col. 3, lines 53 – 60, Col. 4, lines 11 – 22 and lines 30 – 55, Col. 5, lines 15 – 58, Col. 6, lines 18 – 25, Col. 9, lines 34 – 57 and Col. 11, lines 11 - 40.
